

Sobhan Salarian

Student

PROFILE

I am a graduate in Computer Engineering, with a profound passion for learning and imparting knowledge to others. Data mining, big data topics and artificial intelligence algorithms are my professional interests, with a distinct emphasis on data science. I am keen on advancing and enhancing efficiency in these areas and always striving for a deeper understanding and the provision of innovative solutions.

—• INTERNSHIP

IRISA – International Systems Engineering & Automation Company.

preprocessing datas by Python and storage datas in MySql database by Python

11 JULY 2022 - 22 September 2022

—• LANGUAGE

Persian (Farsi) -Native language

English - IELTS 6.5

📍 Iran , Isfahan

—• EDUCATION

Daneshkar Academy(online)

Data Analysis course

20 March 2024 - Present

Kermanshah University of Technology.

Bachelor of Computer Engineering, graduate

September 2018 - July 2023

Adel High School of Isfahan University

4th grade of high school (pre-university), Mathematics Major

September 2017 - June 2018

Adel High School of Isfahan University

High School Diploma, Mathematics Major

September 2014 - June 2017

—• PROFESSIONAL CERTIFICATES

Coursera (online courses)

python programming for everybody

2 February 2022 - 24 February 2022

IELTS (Academic)

listening 7.5 speaking 6.5 writing 6 reading 6.5 overall 6.5

6 August 2023 - 12 April 2024

—• COMPUTER SKILLS

Proficient in Python programming,

data analysis using Pandas and NumPy, and machine learning .

Microsoft Office (word, excel , powerpoint, ...)

Photoshop , figma, adobe XD

—• PROJECT EXPERIENCE

Kermanshah University of Technology (graduation project)

Investigating flight delays of different companies in an airport with data mining and Python algorithms and displaying them graphically in the Bokeh Python library and implementing a recommender system to suggest the best airline in terms of time delay.
